1. Search using Keywords or by Botanical Name. The Keyword search includes characteristics of the plant like common name and color even if the color isn't part of the description. Note that this is a variety search not a material search, for specific sizes of product you will need to navigate to StarTrack.

2. Results will include a photo, where available, the name, botanical name and forms offered. All items on StarTrack will be listed.

3. **BUYNOW** button will navigate to StarTrack and bring you right to the selected item. The current StarTrack ordering screens will continue to be where availability is shown and quantities are entered.

4. Additional information plus High Resolution Photos will be available for many items. Photos and information will be added as it becomes available.

5. "Refiners" are available giving the ability to narrow down search results. Click on a box then click Apply. To remove the refiner, click Clear.
